

# Future development CS

Community ideas are very important. This document is intended to give some structure to those ideas and provide a basis for discussion. As the idea matures, it moves closer to implementation. Seeing your own suggestions become game features is rewarding.

Feel free to provide any feedback on these or other ideas in the Game chatroom or directly PM Patrik. (Understand that Patrik has limited time to read PMs, so the first option is preferred.) Also, if you present your suggestion in [this form](#), it will have a much larger chance of standing out of the "crowd".

---

**Note: QoL = Quality of Life**

## QoL - Dedicated leaderboard page

We now have a lot of ranking criteria on which we give certificates: research, production, sales. And these are not listed anywhere. We need to build a separate, dedicated, leaderboard page with these stats.

---

## Government Orders (redesign) - Implemented November 12, 2024

[Government Orders Guide](#)

---

## Challenge Realm

Get ready to compete in a dynamic sandbox environment without affecting your main company! This feature is designed for those who crave an additional challenge while playing.

In the Challenge Realm, you'll face unique and thrilling objectives, such as:

- Be the first to launch a BFR to space.
- Be the first to sell 5,000 cars.

You'll have multiple attempts to achieve these goals, and we'll keep track of your best times.

The challenge realm operates under entirely different rules, providing a fresh and exciting gameplay experience:

- **Time-Limited Realm:** Each challenge lasts 2-3 months, allowing for multiple play-through attempts.
- **Single Player Only:** The exchange, contracts, and bonds are disabled, making it a pure solo challenge.
- **Varied Starting Conditions:** Begin with different resources, for example large amount of cash.

You'll need to devise the best and fastest strategy to reach the goal from scratch.

### **Earn Unique Rewards**

The best players will earn a special collectible, which can be showcased in your display case, giving you ultimate bragging rights.

---

## Seasonal Industries - Implemented with Halloween and Xmas markets.

---
